END OF SLIDESHOW
High utilizers of multiple SF systems

Presentation of interim results
August 17, 2021

Johanna Lacoe, Ph.D.
Research Director, California Policy Lab, UC Berkeley
Data sources

• Criminal justice system data:
  • SF Sheriff’s Office (jail bookings)
  • SF District Attorney’s Office (charges filed)
  • Approximately 13,500 people booked into jail on new criminal activity each year

• San Francisco Department of Public Health (SFDPH):
  • Coordinated Case Management System (CCMS) data on diagnoses and services received for individuals receiving urgent and emergent care in a fiscal year
  • Approximately 47,000 clients per year
Defining high utilization

- Criminal justice:
  - Individuals who are in the top 5% of jail booking frequency in San Francisco in a given fiscal year
  - Cutoff: 4 or more bookings in a year

- CCMS:
  - Individuals who are in the top 5% of service utilizers across urgent/emergent medical, mental health and substance use disorder services for a given fiscal year
  - Cutoff: more than 8 service contacts in a year
Data linkage

• Linkage between data systems to identify San Franciscans who are among the top 5% of service utilizers in both the criminal justice and public health systems

• Use Fiscal Year 2018-19 (July 1, 2018 – June 30, 2019) as a representative year
